Meet the HRRMC Rehab Team

We offer both inpatient and outpatient rehabilitation services. Inpatient therapists assist when one is hospitalized and in need of bedside and/or acute care or, has undergone a surgery or procedure needing immediate and ongoing rehabilitation, such as a joint replacement or one who is part of our Swing Bed program. Outpatient therapists help with short and long-term rehabilitation of injuries or conditions that do not require a hospital stay, or recovery after surgery and/or ongoing care. Below, you will find a breakdown of types of therapy, where each provider offers their services as well as their specialties and certifications.

We serve the communities of Buena Vista, Saguache, Salida and Westcliffe, Colorado.

LOCATION KEY

Salida Outpatient | Hospital Inpatient | Buena Vista | Westcliffe | Saguache

DIRECTOR OF REHAB SERVICES

Robb Russell, PT

Specialties: Custom foot orthotics, vestibular disorders, adult orthopedics
